## “TRADITION IS NOT THE WORSHIP OF ASHES BUT THE PRESERVATION OF FIRE”

A cocktail renaissance was afoot during the roaring twenties, heralding a gilded age of drinking with decadent parties across Europe. Fitzgerald’s penchant for a Sour and Hemingway’s favoured Martini became the stuff of legend. Bartenders were finding new ways to dress up the Old Fashioned, while the jubilant end of WWI birthed an unforgettable take on the Champagne Cocktail.

Each cocktail we create today is a descendant of a classic, built upon the strong foundations laid by these drinks, applying their proportions and principles — fine spirits, balanced flavours — in inventive ways.

We honour these giants that have stood for generations with contemporary spins for the modern world. Allow us to pour you a tale — uncover the stories behind these beloved classics and discover why they have endured.

# GIN & TONIC

First, a product of necessity, the G&T made bitter, quinine-rich tonic water palatable with the addition of gin. The G&T has since become the tippie of choice for many, prized for its freshness and subtle complexity.

From innovative distilling techniques to curious, exotic botanicals, the juniper spirit category has evolved since the early days of 'bathtub' gin. Experience the craft and passion behind each expressive gin style.

# MARTINI CLASSICS

Ernest Hemingway once wrote, “I’ve never tasted anything so cool and clean... They make me feel civilised.” At its core, the Martini is gin (or vodka), vermouth, and a dash of bitters finished with a twist. This deceptively simple elixir has been a point of fascination and an invitation for innovation for generations of bartenders. ATLAS presents our own love letter to this enduring icon.

## AN ATLAS SUITE

Enjoy all three modern adaptations of the iconic Martini in one flight,  
and savour this symbol of cocktail elegance.

38

The first recorded recipe for the Martini can be traced to the early 19<sup>th</sup> century. Many stories swirl around the invention of this icon, from ties to the lineage of the Martinez, the gold rush, and a bon vivant's talent for mixed drinks. Yet these origins have yet to be definitively established.

The Martini, with its adaptability, has become a cultural touchstone - roaring through the Twenties, enduring through the Thirties, and achieving its iconic status in the Forties. While many may remain at odds with its history and what constitutes a perfect serve, one thing is certain - a Martini will never go out of style.

When lengthy sea voyages were the standard in the 19<sup>th</sup> century, sailors mixed their gin ration with citrus as a remedy to stave off scurvy - accidentally discovering the Sour. This delicious stroke of serendipity made it onshore, and by the start of the 20<sup>th</sup> century, the Sour had become one of the favoured styles of mixed drinks.

With a wicked ability to refresh and invigorate, the Sour is a mastery of balance. Designed to be neither too tart nor sweet, it is a harmonious meeting of flavours that will keep you coming back for more.

# OLD FASHIONED

whiskey | bitters | sugar | orange

Unwavering, the Old Fashioned has held its own against changing tides of taste. In 1806, the first documented usage of the word 'cocktail' emerged alongside the humble recipe for a whiskey 'cocktail', which we know today as the 'Old Fashioned'. As more cocktails entered the lexicon during the early 19<sup>th</sup> century, drinking traditionalists would order an 'Old Fashioned' - a cocktail without all the 'fuss'.

No longer confined to the walls of a gentlemen's club, the Old Fashioned is now a sipper made for interludes both intimate and rousing.

# CHAMPAGNE COCKTAIL

champagne | brandy | sugar | bitters

"Pleasure without Champagne is purely artificial." During the decadent parties of the gilded age, Champagne cocktails were the favoured pour of Grande Fête De Nuits. Not merely used for its fizz, Champagne brings a unique acidity to cocktails. One of the evolved cocktails in modernity, the earliest literary record emerged in the mid-19<sup>th</sup> century. The most famed expression, French 75, was created in a time of jubilation, marking the end of a bitter war.

Beautifully bright and romantic - Champagne cocktails speak of celebrations. It is time for unbridled merriment - drink in the good and toast to the pleasures of life!
