THE ATLAS COLLECTIONS

Dear Guests,

Welcome to ATLAS - a labour of love that honours my grandfather, CS Hwang, the late founder of Parkview Group, and the beautiful space he created in which ATLAS resides. It is our hope that your experience at ATLAS reflects the passion and attention that has gone into every aspect of its creation. A grand and beautiful space, we invite you to unwind, enjoy, celebrate and indulge as our talented and dedicated ATLAS team makes you feel most welcome and at home.

The ATLAS Collections feature two of the world's most remarkable physical collections of Gin and Champagne. Building the ATLAS Collections was a monumental task which took over two years to curate and assemble. We are also delighted to feature a selection of rare and exceptional still wines and whiskies from my own family's private cellar, which for the first time since its inception almost 40 years ago, has been opened especially for our guests at ATLAS.

Building upon the modest collection of wines started by my grandfather, the Parkview Family Cellar found a permanent home in 1989 with the opening of the Parkview Group's flagship property, Hong Kong Parkview. Initially consisting of a small collection of 50 bottles of right bank Bordeaux wines, the collection grew steadily under the stewardship of my uncle, George Wong, and his son Alex.

By 2000, the collection was at 3,000 bottles and has now expanded beyond the right bank to other regions in France and the rest of the world. Currently, the collection stands at 50,000 bottles of fine wine and over 10,000 bottles of whiskey acquired through reputable merchants, auctions, and numerous trips to the wineries and distilleries where suppliers have now become close friends, ensuring that the family always has access to the finest and rarest bottles.

For those who share our genuine passion for fine wines and spirits, a small but special sampling of the bottles from the Parkview Family Cellar have been brought to ATLAS for you to enjoy. We hope that you are able to try things here that you would otherwise not find; and that you will enjoy our treasures as much as we have enjoyed collecting them and sharing them with you.

Warmest regards,

Vicky Hwang

THE ATLAS GIN COLLECTION

Gin; a clear alcoholic spirit distilled from grain and flavoured with juniper berries (and other botanicals). The name is derived from the French genièvre or the Dutch jenever, which both mean juniper.

Juniper; an evergreen, dioecious shrub that grows all throughout the Northern Hemisphere. It produces a long ripening berry that when dried can impart a piney, citrusy, floral aroma and flavour.

Welcome to the ATLAS Gin Collection; a labour of love that has involved collecting, carefully curating and cataloguing the entire world of gin. Our aspiration is to introduce our guests to the beauty and wonder of this incredible spirit.

Gin is liquid history. From the tombs of ancient Egypt, the monasteries of the Middle Ages, the laneways of the Industrial Revolution, through Prohibition and to the current Second Golden Age of fine drinking, gin has been drunk by all classes and in all corners of the globe. For over two millennia juniper berries have been used for ritual, medicinal and gastronomic purposes. For almost 1,000 years, this unique botanical has been used in fine beverages, namely gin.

Gin is provenance; it looks to the natural world for flavour, aroma and sensation. Gin is the quintessential cocktail ingredient, and since the turn of the twentieth century has been a bartender's favourite cocktail spirit. It is a beacon for sophistication and style, yet is founded upon mayhem and grit. Gin is a delicious spirit; it runs the gamut of fresh, vibrant and zesty, to floral, soft and delicate. It can be robust and bracing, it can be savoury and spiced.

Here at ATLAS, we are delighted to share one of the world's finest collections of gin with you. We have arranged our gins into seven different categories, therein lies numerous flavour profiles, botanicals and expressions of the juniper spirit. Our passionate and dedicated gin team stands ready to assist you in your gin journey.

THE ‘GIN RATION’ DECREE

The ATLAS Gin Collection is a rare and special treasure, designed to be enjoyed by all. As such, we must insist on a Gin Ration, just like the old days in the Royal Navy in the United Kingdom. For the special gins in our collection – those where only one or two bottles have been carried from afar - guests are allowed just one pour of each gin per visit to ATLAS.

If you love gin as much as we do, or would like to taste even more of the rare gins that arrive at ATLAS, please ask about becoming a member of our Juniper Society.

◊ denotes gins that are subject to the Gin Ration.

A GUIDE TO THE WONDERFUL WORLD OF GIN

The world of gin has become wide and deep. Furthermore, there is a distinct lack of categorisation compared to other spirits, such as Tequila or Cognac. To help you navigate our remarkable gin collection we have split the gins into the following categories:

LONDON DRY

The archetypal style of gin. The most traditional and what most people know as Gin. Legally defined by production technique: a distilled gin with real botanicals and nothing added after distillation. Actually, it does not have to be made in London and usually has more prominent juniper representation.

MODERN

We define (loosely, admittedly) modern gin as one that doesn't fit the juniper-forward London Dry Gin style. Gins that celebrate or highlight an abundance of botanicals, or have an emphasis on fruit or spice, or gins that champion location or technique.

OVERPROOF AND NAVY STRENGTH

Gin has a rich history within the British Royal Navy, for centuries it was issued to all ships sailing the high seas. Traditionally, to prove its strength and quality, it had to be able to wet and ignite gun powder. Over time it was deduced that the lowest proof for this experiment to succeed was 114 proof, or 57% abv (alcohol by volume). This higher proof makes the gin and the botanicals shine.

BARREL-RESTED

When a gin has been stored in a wooden cask for a period of time, imparting some of the colour and character of said wood, it is classified as a barrel-rested gin. A sub-category that has boomed in recent years but has historical precedents. Once upon a time, all gins would have been stored and transported in a barrel!

OLD TOM

A style of gin popular in the 18th and 19th century in a time when techniques such as sweetening or the addition of extra botanicals were used to mask the flavour of poorly made (or dangerous) gins. Now it is back in a more craft iteration with variations including different sugars and wood ageing.

SLOE GIN

Actually a gin liqueur, this is a traditional drink from the English countryside. Made from sloes, the plum-like fruit that grows on blackthorn hedgerows dividing old properties. Simply gin, sloe berries and sugar.

GENEVER

Not actually gin! We keep a hefty collection of this because it's important to the history of gin. This mostly Dutch spirit is considered the precursor to what we know as gin. It's kind of like a mix between unaged whisky and gin. It is sweet, and very cereal-like.

*after this categorisation, we further split the gins into flavour profiles.
we invite you to explore our taxonomy of taste next!*

OUR TAXONOMY OF TASTE

Through much research, testing and the resulting inebriation (hiccup), the ATLAS Team landed upon the following terminology to best convey the flavour profile of our gins. The taxonomy is meant as a guide and within each designation the prominence of that sensation may vary wildly. Taste is subjective, so go easy if you disagree!

CITRUS

bright, zingy, refreshing

Bright, fresh, blossomy goodness. Can be a burst of orange sherbet, a suggestion of lemon curd. Some zesty lime skin or sweet, bitter grapefruit. Can be a restrained hint of citrus pith. An explosion of perfumed citronella.

FLORAL

bouquet, perfumed blooms, petals

A bouquet of excellence. The new modern of deliciousness. Sometimes perfumed blooms of all manner of flowers, petals, stalks and dried spices. Other times more restrained, with subdued fragrance of sweet flower-wonder.

HERBAL

fresh bunch, dried leaves, vegetal

Tight bunches of all herbs. Fresh, wet and dried. Fossilized herbs with tannic tea leaves. The snapped stalk of an old rosemary bush. Sweet basil and herbs de Provence. Sometimes pungent, sometimes mild.

SPICED

peppers, baking spices, fragrant

Lifted baking spices, exotic peppers, fragrant arboreal notes mixed with subtle sweet aromatic dried wood. Maybe a little tingle, maybe a little dessert-like spice. Maybe like a sauna with the heat turned up.

LUSCIOUS

delicate, velvety sweetened, scrumptious

Vibrant, lifted botanicals. Extra flowers, fruits, herbs and spices to give deliciousness. Often delicate and balanced with sophisticated lusciousness. Sometimes confectionary with over-the-top youthful fruitiness.

NUTTY

rustic, woody, savory edge

Rustic candy of the earth. Nuts and seeds and kernels of all sorts. Ground-up woody flavour mixed with some sweet chalk, and soft spice. Oily sometimes, brown and beige and sweet and nice with a savoury edge.

EARTHY

dark rich soil, turf, wet leaves

Dark rich soil, wet leaves and turf. Chalk-like with a combination of menthol, compost and forest floor. Can be recognized as fresh earth, withering underlay or top notes of perishing leaves.

GRASSY

greenness, tall grass, meadow

Sweet, greenness. Long stalks of fresh tall grass. Reeds, grass clippings, just-cut soft herbs and a meadow blanket of lively fresh lawn. Some straw-like bundles of hay.

BERRIES

plump, roundness, jammy

Plump, fruity roundness. Darker and sweeter fruity notes and some left-on-the-vine ripeness. Notes of something jammy, fruit conserves like strawberry or plum or of course those blackthorn sloes.

FRUITY

exotic, audacious, not fruit flavoured

Audacious and fun-loving. Packed full of who-knows-what. Exotic fruits, flowers and other botanicals from around the world. Modern iterations of traditional gin. Not fruit-flavoured gins, but distilled gins with an emphasis on fruity flavour.

SEVEN MOST COMMON BOTANICALS

JUNIPER

Gin has to have this to be called gin. A small dried berry. Smells and tastes like spruce and pine. Nice burnt citrus, underripe plum and dry branch. Forest floor, in a good way.

CORIANDER SEED

In nearly all gins. This is the spicy, woody little seed from the bush. This botanical gives gins a lifted citrus quality when there is no citrus. Sweet, spicy wet wood and lemon sherbet.

ANGELICA

The third most used botanical. Usually the root. Musky, woody and more earthy than the other spices in the 'holy trinity'. Known as a fixative spice to help the others shine.

NUTMEG

A staple on spice shelves and native to South East Asia. Another warming, spiced botanical that gives gins some extra length on the palate. Used widely in cooking, cosmetics and gin.

ORRIS

The dried root of the iris plant. Used as a base ingredient to bind other ingredients together, similar to how it's used in perfumery. By itself it can give off a floral, violet petal like aroma.

CASSIA

The bark from an evergreen tree native to South Asia. Resembling cinnamon, it has a distinct, sweet, fiery yet warming fragrance. It has a delightful pungency that adds warmth and depth to a gin.

LEMON

While other botanicals can give the impression of citrus, dried lemon peel is often the contributor. It gives a fresh brightness. The result can vary from confectionery to real, bite-a-lemon sensation.

THE SEARCH FOR THE PERFECT PAIRING

Tonic water was first used as a medicinal treatment for malaria by British troops in the 19th century. To counter the bitterness of early iterations of tonic, gin was mixed with tonic to make it more palatable. And thus, the G+T was born. The most celebrated pairing in any spirit category, the two-letter combination everyone knows.

Choosing the right tonic is as vital as choosing your gin. We have suggested pairings below, a wealth of possibilities await.

East Imperial ATLAS Burma Tonic

classic, the highest quinine available, a hint of lemongrass
enjoy with citrusy, spiced and earthy gins

Fever Tree Mediterranean Tonic

fragrant, with the addition of soft herbs and lemon thyme
enjoy with spiced, nutty and earthy gins

East Imperial Yuzu Tonic

aromatic, sweet yet strong, japanese citrus fruit
enjoy with citrusy, herbal and grassy gins

Ekobryggeriet Elderflower

delicate floral, made with quassia, a taste of Swedish summers
enjoy with grassy, luscious and floral gins

London Essence Grapefruit & Rosemary Tonic

herbaceous, subtle quinine with zesty citrus
enjoy with floral, luscious and berry forward gins

Franklin & Sons Mallorcan

savoury, with aromatic rosemary & thyme and zesty citrus
enjoy with citrusy, herbal and floral gins

East Imperial Royal Botanic Tonic

lifted quinine, with elderflower, notes of ruby grapefruit
enjoy with citrusy, floral and fruity gins

Thomas Henry Pink Grapefruit

sharp, refreshing with zesty grapefruit
enjoy with spiced, luscious and floral gins

Ekobryggeriet Rhubarb

tart, with soft strawberry and green apple
enjoy with spiced, floral and citrusy gins

East Imperial Soda Water

zero quinine, ideal for letting the botanicals shine
enjoy with citrusy, floral and spiced gins

tonic to pair with your choice of gin

MODERN

We define (loosely, admittedly) modern gin as one that doesn't fit the juniper-forward London Dry Gin style. Gins that celebrate or highlight an abundance of botanicals, or have an emphasis on fruit or spice, or gins that champion location or technique.

OVERPROOF AND NAVY STRENGTH

Gin has a rich history within the British Royal Navy, for centuries it was issued to all ships sailing the high seas. Traditionally, to prove its strength and quality, it had to be able to wet and ignite gun powder. Over time it was deduced that the lowest proof for this experiment to succeed was 114 proof, or 57% abv (alcohol by volume). This higher proof makes the gin and the botanicals shine.

BARREL-RESTED

When a gin has been stored in a wooden cask for a period of time, imparting some of the colour and character of said wood, it is classified as a barrel-rested gin. A sub-category that has boomed in recent years but has historical precedents. Once upon a time, all gins would have been stored and transported in a barrel!

OLD TOM

A style of gin popular in the 18th and 19th century in a time when techniques such as sweetening or the addition of extra botanicals were used to mask the favour of poorly made (or dangerous) gins. Now it is back in a more craft iteration with variations including different sugars and wood ageing.

GENEVER

Not actually gin! We keep a hefty collection of this because it's important to the history of gin. This mostly Dutch spirit is considered the precursor to what we know as gin. It's kind of like a mix between unaged whisky and gin. It is sweet, and very cereal-like.

FINE SPIRITS OF THE WORLD

WHISK(E)Y

One of our other great spirituous loves is the world of fine whiskies. At ATLAS, we maintain a rich, respectful selection of Scotch, Irish, Japanese and American whiskies. We are particularly proud to offer a diverse range of single malts from all regions and of a broad range of age statements. From sherry cask finishes to smoke-driven malts, we can propose a whisk(e)y for all palates and occasions. *Sláinte!*

THE ATLAS CHAMPAGNE COLLECTION

Champagne; a sparkling wine produced adhering to strict regulations and exclusively from the regions of Champagne, France. The Comité Interprofessionnel du vin de Champagne (CIVC) is the governing body for all the wines from Champagne. They have developed a comprehensive set of rules for the production of Champagne, which are regarded as the strictest in the world - thus, every bottle of Champagne is of a guaranteed quality and a specific profile that is unlike any other sparkling wine in the world.

Champagne is celebrated for its versatility and its romantic, rich culture. Extensively documented, Champagne's history is both wide and deep. Having a broad spectrum of styles which are made to be enjoyed in different occasions, Champagne has been present at the world's parties for hundreds of years.

We hear stories of Champagne in war time, on imperial dining tables and being the favoured tippie of the great figures of history. Perhaps it is the tiny bubbles percolating in a golden liquid that cause us to embrace all of the emotions ensconced in Champagne: love, hatred, happiness and tears.

Now is your time to enjoy the finest Champagnes the world has to offer. The ATLAS Champagne Collection is one of the largest in Asia. It has been carefully curated to bring out these sensations and stories through the finest wines from the Champagne region. Whether it is a special occasion or not, we are delighted to offer you our very favourite Champagnes to celebrate the joys in life.

The ATLAS Champagne Collection is arranged into three categories:

La Sélection: featuring beautiful Champagnes for all moments.

Le Terroir: a dedication and celebration of the 17 Grand Crus of Champagne, the single village releases that are at the heart of Champagne culture.

La Prestige: an extraordinary list of the most renowned Champagnes drawn from the Parkview Family Cellar and from the most iconic Champagne houses.

Go ahead and explore the remarkable world of Champagne. Our wine team stands ready to assist you in your journey.

RARE & SPECIAL BOTTLES

The ATLAS Champagne Collection includes some genuine treasures, of which only one or two bottles are available. Because of the extraordinarily rare nature of these bottles, they will be crossed off once enjoyed by our guests. If your preferred Champagne is not currently available, please accept our most sincere apologies! We would be delighted to recommend a suitable alternative.

The □ symbol denotes special bottles from the Family Collection.

LA SÉLECTION

In La Sélection, we celebrate great diversity of Champagne, bringing you a wealth of styles to suit your mood and the occasion. There are famous Champagne houses represented here, with both vintage and non-vintage champagnes for you to choose from.

LE TERROIR

In this section, we adhere to the “échelle des crus” system that was developed in the mid-1900s. This system divides the villages of Champagne into three levels of quality. From the highest tier, we present the 17 Grand Crus here, which make up just nine percent of the villages in the Champagne region.

LA PRESTIGE

This section shares our family's philosophy about being a patient and persistent collector of some of the finest things in the word. This value is shared by our family and many of the traditional Champagne families. Here we present truly extraordinary Champagnes from the Parkview Family Cellar and some of the greatest Champagne houses. "Prestige Cuvée" is the word used by the houses to describe their, and therefore our, best offerings.

PIPER-HEIDSIECK

Credited as a Champagne worthy of a queen, Marie Antoinette was the first brand ambassador of Piper-Heidsieck back in 1785. Cuvée Rare was created in 1885 to celebrate its centennial with a bottle designed by Pierre-Karl Fabergé, star jeweler of Russian Tsar Alexander III. Piper today still gives the same dash of seduction it has since 1785.

CHARLES HEIDSIECK

In 1851, at the young age of 29, Charles Heidsieck founded the house bearing his own name. Now owned by the EPI group since 2011, the house is gaining it's former glory as one of the most highly esteemed champagne houses of the century. Headed by Cellarmaster Cyril Brun, these champagne are characterized by freshness, power, richness and elegance.

KRUG

Behind every precious drop of Krug stands the dream of a visionary. One man who, long before others, understood that the essence of Champagne is pleasure. Over 170 years ago, Joseph Krug broke with convention to follow this vision. In doing so, he created some of most generous expressions of Champagne each year. This tradition continues to this day.

SALON

Salon was created as a private label, from similar beginnings as the more famous Cristal. Since its first vintage in 1905, Salon was shared among private clients and friends of the visionary Eugène Aimé Salon, who believed that the Chardonnay in Le-Mesnil-Sur-Oger could make fine and elegant Champagnes without blending with Pinot Noir and Pinot Meunier. And so the idea of Blanc de Blancs was born.

DOM PÉRIGNON

First released in 1921, during the dawn of the Art Deco era, this Champagne bears the same name as the famous Benedictine monk who arguably created Champagne. One of the first “Cuvée” concepts, it was soon destined to be one of the blue bloods of Champagne.

POL ROGER

The relationship of Pol Roger and the beloved Sir Winston Churchill was never a commercial or superficial one. Pol Roger had been the favourite champagne of Churchill since 1908 and had even befriended Madame Odette Pol-Roger at a party at the British Embassy in Paris in 1944. In 1984 Pol Roger honored this legendary relationship with the release of the Pinot Noir-dominant Cuvée Sir Winston Churchill.

LOUIS ROEDERER

Being the favourite house of Tsar Alexander II, Louis Roederer technically created the world’s first “Prestige Cuvée” for the paranoid Tsar in 1876. Living in fear of assassination by poisons and bombs, he ordered a Champagne in clear bottles and with a flat bottom, to be made and served for the famous Three Emperors Dinner at Café Anglais in Paris. The first commercially available vintage of Cristal was 1945, many decades after the original release. Yet the famous story of its founding remains part of Champagne’s rich history.

BOLLINGER

Known as the famed James Bond Champagne, Bollinger is one of most respected Champagne houses. Bollinger’s famous Prestige Cuvée, “La Grande Année” is not the only sought-after label from this house, The “Vieilles Vignes Françaises” made from parcels of ungrafted Pinot Noir and the late disgorgement “Récemment Dégorgé (R.D.)” label are also on the top of connoisseurs’ lists.

TAITTINGER

The name Taittinger is very much associated with the French political world. Pierre Taittinger, was a powerful politician and a champagne distributor. Pierre restored the House of the Counts of Champagne in Reims during his lifetime, before it was unfortunately destroyed by the Germans during the World War II. The Prestige Cuvée of Taittinger was created to commemorate the powerful reign of the Counts of Champagne during the Medieval Ages.

TAITTINGER COLLECTION

“Imagine a bottle of Champagne as a canvas. Imagine that the wine it contains is a muse. Then introduce a great artist to a great vintage...”

It is believed by many winemakers that winemaking is like painting, where the grapes are the canvas provided by the almighty Mother Nature. Champagne Taittinger nurtured the idea of art in wine and wine in art, inviting world famous artists to design the labels for champagne bottles. The birth of the Taittinger Collection series sees its 13th member in 2016. This collection is not just a list of the finest Champagnes, but also an archive of the quintessence of modern art.

DEUTZ

Established in 1838, Deutz has a glorious past. Being the favourite Champagne of the English in the 1900s, Deutz exported more than 600,000 bottles to the United Kingdom by then. The company is a living fossil, which is a testament to the glorious history of Champagne as one of the most celebrated drinks in the world. Nowadays Deutz is a rare find, especially its prestigious tribute to the owner, the Cuvée William Deutz.

G . H . M U M M

Established in 1827, this German family created the famous “Cordon Rouge”, a silk ribbon on each bottle of Champagne, which became iconic in the Champagne bottle designs. By 1904, Mumm became the official supplier of Champagne to British royalty. Mumm’s prestige cuvée is named after the visionary man who led Champagne Mumm into quality and international prestige in the 20th Century.

SHIPWRECK CHAMPAGNE

On 26 October 1916, amidst the devastation of the World War I, a small Swedish smuggling schooner named “Jönköping” was being quietly loaded with contraband in the city of Gävle in the south of Sweden. Among the packing list was a modest 3,000 bottles of Champagne, tasted, liked and ordered by Tsar Nikolai II, the last Emperor of the Russian Empire. It was Jönköping’s tenth smuggling journey of the year. Everything seemed to go smoothly, with none of the crew suspecting that this trip would be their last.

The day was 3 November of 1916, when a German U-22 submarine intercepted this unlucky Jönköping off the Finnish coast and sank it along with its haul of precious contraband. The Champagnes together with the Jönköping, since then, quietly slept at a depth of 64 meters under the sea, for the next 82 years.

Jönköping was salvaged in 1998, its cargo held the 1907 Heidsieck & Co. Monopole “Goût Américain”, a Champagne which was also served on the famous Titanic (ironically also sunk in 1912). Fortunately, due to the perfect pressure and temperature deep in the Baltic sea, many of the original 3,000 Champagne bottles made it through this 90-year transcendence of time safely, with corks intact and no leakage.
